

Metro Car Wash And Detailing

Description:

In 2009, Eastbay Hand Car Wash was purchased by well known Milwaukee entrepreneur Mazen Muna. Muna transformed the dying car wash into the celebrity go to centre for car care. Muna's philosophy is to, "Give the customer what they need with no over sell." In other words at Metro you will only pay for what actually needs to be done to your car.

Metro will even pick up and drop off your car for you. Metro offers a few services that are not readily available at other Milwaukee car washes like engine cleaning, dent removal, and touch-up painting of minor nicks & scratches.
