

Metropolitan Pit Stop Museum

Description:

We invite you to visit our Museum, featuring the prototype Metropolitan station wagon and the incredible Metropolitan Astra-Gnome concept car!

You will also see a very early production Nash Metropolitan, a Hudson Metropolitan loaded with dealer accessories and several other very rare Metropolitans.

In our museum, we have a 100% original 1961 Metropolitan and a 100% original early production 1953 NKI Custom. All of the other Metropolitans in our museum were restored by our own technicians using our own parts.
