

Hudson-Essex-Terraplane Club (California Inland Chapter)

Description:

This Club is all about the fabulous cars that the Hudson Motor Car Company built from 1909 to 1957. While the Hudson company is history, interest in it's cars continues to grow. Our club is dedicated to keeping those cars on the road and preserving the legend by supporting Hudson owners. If you own a Hudson or are interested in them, please join us. You will find parts and technical assistance faster in the HET than anywhere else.

Hudson people are a close knit group and love to have a good time. We have tours & meets throughout the year and often have more than one event in a month. We are an informal group and welcome new members. Come and join the fun!
